CAREER OBJECTIVE

I'm looking for an opportunity where I can apply my technical skills, continue learning, and grow both personally and professionally. I aim to contribute meaningfully to team projects, solve real-world problems using my computer science knowledge, and be part of innovative solutions.

PROFILE SUMMARY

- Strong communication and technical skills with quick adaptability to new technologies
- Punctual and consistent with strong problem-solving ability.
- Self-motivated, analytical thinker, and team player
- Ready to take on challenges and learn independently.

SKILLS SUMMARY

- Programming Languages:** Java, Python, C++
- Frontend Technologies:** React.js, HTML5, CSS3
- Backend & Scripting:** JavaScript (DOM manipulation)
- Data Structures & Algorithms:** Intermediate knowledge using Java
- Libraries & Frameworks:** NumPy, Pandas
- Tools & Platforms:** VS Code, Git & GitHub, XAMPP
- Currently Learning:** Machine Learning, Deep Learning (Neural Networks, CNNs, etc.)

ACHIEVEMENTS & AWARDS

-  **1st Place – AI-Based Tutoring Platform:**
Won first prize at Tech Yuva 2025 for developing an intelligent tutoring system with AI chatbot, test tracking, and personalized learning features.
-  **1st Place – Multifunctional Web Platform**
Secured top position at Tech Yuva 2024 for building a web solution combining multiple services like restaurant ordering, games, and utility features into a single platform.

PROJECTS

- Multifunctional Web Platform:** Developed a unified website offering multiple user-focused services.
- AI-Based Tutoring Platform:** Built an AI-driven learning system with chatbot and progress tracking.
- NuroFi (In Progress):** Developing a crypto platform with AI-based trend prediction.

ACADEMICS

YEAR	DEGREE/CERTIFICATE	COLLEGE/UNIVERSITY	CGPA/PERCENTAGE
